### Employment

#### Jr. QA Engineer

Oct 2022 - Feb 2023

SoftCorp, Minsk

Worked in the product team on a gambling project.

My responsibilities included: smoke testing, integration, regression, retests, cross-browser testing, cross-platform testing: mobile (mobile browsers and apps) and desktop (desk browsers). Tested on different environments: test, hidden prod, prod. Wrote bug reports, filled out reports. Used: TestRail, YouTrack, Confluence, CRM, DevTools.
